

1,2,3,9-tetrahydro-4H-carbazol-4-one

CAS : 15128-52-6

1,2,3,9-Tetrahydro-4H-Carbazol-4-One (CAS 15128-52-6) is a dual-application intermediate essential for synthesizing both Carvedilol (Beta-blocker) and Ondansetron (Anti-emetic). Prajash Pharmaceuticals offers this product in bulk quantities with rigorous quality checks, supporting cost-effective and scalable API manufacturing.

Specification	Details
Product Name	1,2,3,9-Tetrahydro-4H-Carbazol-4-One
CAS Number	15128-52-6
Common Synonyms	4-Oxo-1,2,3,4-tetrahydrocarbazole; 4-Oxotetrahydrocarbazole
Application	Intermediate for Ondansetron & Carvedilol
Molecular Formula	C ₁₂ H ₁₁ NO
Molecular Weight	185.22 g/mol

Address: H.NO 1 54, Basavakalyan Taluka, Bidar-585331, Karnataka.
