

9-Methyl-1,2,3,9-tetra hydro 4H carbazol-4-one

CAS : 27387-31-1

9-Methyl-1,2,3,9-Tetrahydro-4H-Carbazol-4-One (CAS 27387-31-1) is the key structural intermediate for Ondansetron, a leading anti-emetic medication used in chemotherapy and post-operative care. Prajash Pharmaceuticals manufactures this carbazole derivative with exceptional purity (>99%), ensuring high efficacy in the final Active Pharmaceutical Ingredient (API).

Specification	Details
Product Name	9-Methyl-1,2,3,9-Tetrahydro-4H-Carbazol-4-One
CAS Number	27387-31-1
Common Synonyms	9-Methyl-4-oxo-1,2,3,4-tetrahydrocarbazole; 1,2,3,9-Tetrahydro-9-methyl-4H-carbazol-4-one
Application	Key intermediate for Ondansetron
Molecular Formula	C ₁₃ H ₁₃ NO
Molecular Weight	199.25 g/mol

Address: H.NO 1 54, Basavakalyan Taluka, Bidar-585331, Karnataka.
